No Printing provided for address
on face or back of envelope. This
eliminates the security hazard of
listed names and addresses. File
drawers
space now used for envelope
storage will be released.

Initial sealing of gum flap, saving
expense of sealing tape and time needed
to tape the envelope.

Use of window envelope an envelope carrier receipt or 3x5 card, using carrier receipt insures the right receipt being placed with appropriate material & eliminate need for second writing of address.

Security Criteria on Old Envelopes

1. Because of holes envelope can't be used as outer cover of double wrapped material.
2. Receipt pocket had to be changed to assure receipt wouldn't be lost.
3. Button & String tie method had to be changed to a more secure method.
4. Inspection holes had to be eliminated.

Above OS requirements set forth by Mr Mc Intyre.
